

# Unicity Super Chlorophyll™ featured in InStyle Magazine!

„Unicity Super Chlorophyll™ is one of my Top 6 beauty products.”

*Sonia Cooling, Supermodel*

## True beauty comes from within...

...says supermodel “Pim”, Sonia Cooling. Working hard in the entertainment business, she didn't think much about taking care of herself in the past. However, when she started gaining weight, she suddenly realized that she actually needed to actively promote her beauty and well-being. So she consulted health gurus and devoured countless health guides.

Her new secret of beauty and well-being? Inner balance! Today, she regularly meditates and does yoga to manage her stress levels – stress being the biggest cause of aging. Also, she drinks her juice mixed with Unicity Super Chlorophyll™ every morning as she knows that true beauty comes from the inside out.

Of course, as a superstar, she always carries different kinds of makeup and beauty lotions in her purse to make sure that she looks great all the time. Now InStyle magazine has had

the privilege to take a look into her purse and it was a surprise to also see Unicity Super Chlorophyll™ in there. For her the product is a must-have, every day!
